

March 2019
Ms. Meali & Ms. Vazquez

Pre-K 261 Class News

We had a wonderful time exploring the February unit of study about light. We had so much fun using the light table. In our March unit of study, we will be exploring water. In this unit, we will focus on why water is important and where we can find water. There are four questions in this unit that we will focus on:

- Where can we find water?
- What happens to water when it changes temperature?
- What happens when we put things in water?
- How does water help us?
