Dear Families of PreK 258:

Welcome Fall! We survived our first month of PreK! We are still getting to know each other and work on our routines but we are better than the first few weeks of school. Our class learned about our school and what we will learn and do in PreK. In October, we will explore our senses and this is such a great time of year with all of the changes the new season brings. We encourage families to notice what is around when walking to school with your child and discuss which senses are being used. It is also a great time to try new foods and introduce new words that describe what you are tasting.

Something to think about...

Fall has always been my favorite season. The time when everything bursts with its last beauty, as if nature had been saving up all year for the grand finale.
