PS 147  
The Isaac Remsen School  
325 Bushwick Ave.  
Brooklyn, NY 11206

At PS 147, we are stepping up to greater things.

## P.S. 147 4<sup>th</sup> Grade Newsletter

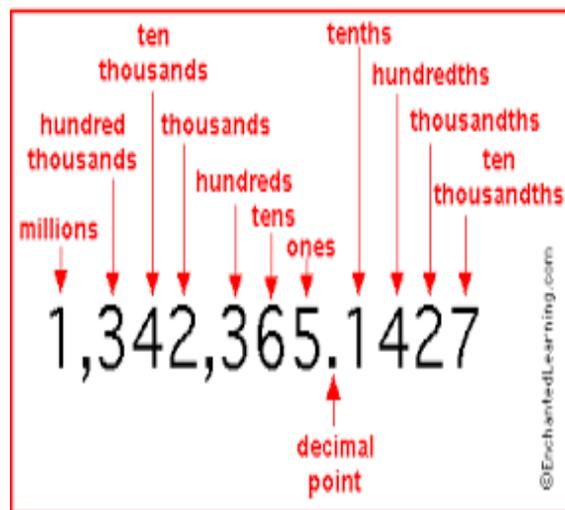

### Reading/Writing

- In Readers' Workshop, the students are focusing on building foundational skills through a variety of genres. They will be able to identify structures to assist text understanding and be able to proficiently read and comprehend a variety of genres independently.
- In the Writers' Workshop, we are doing a great job on writing Narratives keeping within the elements of the Writers' Workshop model. The writers are using their Narrative checklists as a guide in writing detailed Narratives. As a result, their "voices" are heard throughout their writing.

### Math

- In Go Math!, we are currently in Place Value, Addition and Subtraction to one million. The students are using problem-solving strategies to solve word problems and are doing a great job synergizing with their peers in solving word problems as well.

## Science/Social Studies

- In Science, the students will be working with a new program entitled "Amplify Science" which is a robust, hands-on program that is critical to the study of Science and we will launch this incredible curriculum with our first unit on Vision and Light. The students are excited to become "Scientists" and put their hypothesis to the test.
- In Social Studies, the students did a wonderful job in reference to Project-Based Learning (CHOICE-VOICE-AGENCY). In honor of Hispanic Heritage Month, the students were creative and had fun researching a country of their choice and presented their projects to their fellow classmates speaking in great detail about their research. Their classmates, in turn, asked critical questions pertaining to the presenter's project.

## Reminders:

- Please remember to complete homework every night.
- Your child should be reading every night for at least 30 minutes.
- Please come to school on time every day.

## Important Dates:

- 10/8 Columbus Day – School Closed
